

POCKET-DOOR HALL LOCKERS

Handle and lock recessed within the door frame

- Designed with the durability necessary to withstand the never-ending use of students or staff year after year while offering plenty of storage room
- Accommodates a padlock (not included) or an optional built-in combination lock
- Constructed with heavy-duty sheet steel: 20 gauge backs, shelves and dividers; 18 gauge walls; 16 gauge doors, tops, bottoms, caps and bases
- Doors are louvered for ventilation and feature number plates
- 2-pronged coat hook under the top shelf and one single-prong wall hook on back wall included
- Bolts to wall
- Delivered fully assembled in banks of three
- Single-tier or double-tier styles in six standard sizes; custom sizes available
- Customization with logos available
- Slanted top and base optional
- Installation services available
- ADA models available for all sizes
- Choose from IPI standard paint colors or work with us to find the perfect color for your project

Need something a little different? All IPI locker specifications can be customized to meet your specific needs.
